

# RETURN TO NETBALL *STAGE 2.2*

## GUIDELINES

From midday on the 19 June 2020 the ACT will enter Stage 2.2 for community sporting activity, allowing the re-commencement of non-contact sports into competition, while also increasing the number of groupings up to 100 people in both indoor and outdoor areas.

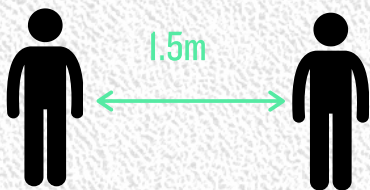

'Get in, train/play and get out' - Be prepared for training prior to arrival at venue. Minimise the need to gather in change rooms or common areas.

Hand hygiene (hand sanitisers) on entry and exit of venues, as well as pre, post and during training.

Within the rules of netball we do not allow for contact other than incidental contact. Which has given us the green light to resume contest training and competitions.

Participants and spectators should maintain physical distance of at least 1.5m at all times

Have cleaning protocols in place for equipment, netball's and facilities

For full Return to Community Netball Guidelines including info graphics, venue information, hygiene requirements and risk assessments visit the Netball ACT website:
